Academic Program Policies for Pre-Health Professions Certificate Program

• A student enrolled in the Pre-Health Professions program will be placed on academic probation and notified of academic deficiency if a cumulative grade-point average of 3.0 (grade of B on a four-point scale) is not maintained throughout the program. The probation will commence at the completion of the fall or spring semester in which the cumulative grade-point average fails to meet the 3.0 standard.

• A student shall be subject to disqualification if, while on probation, a sufficient GPA to remove probationary status is not achieved at the end of the term following the term in which the probation commences (excluding summer). Disqualification may also occur at any time it becomes mathematically impossible to raise the GPA to a 3.0 average regardless of probationary status.

• If a student fails a course, he/she will be out of sequence of the program and will need to retake the course when it is again offered by the program. Failing a course does not preclude the student from continuing in the certificate program as long as he/she meets the GPA requirements listed above.

• A student should be advised that each course may carry its own pre-requisite grade requirement (see University Catalog for details).

• In classes in which there is an integrated lab, both the lecture and lab portions must be passed in order to pass the class.

By signing this document you are acknowledging and accepting the above policies.
